Ownership of the product is transferred on receipt of payment

This 'must-have' resource provides practical, easy-to-follow advice for all teachers wanting to integrate ICT into their curriculum.

Taking student expectations as the foundation for ICT it asks, "How can this technology assist students to create, inquire, communicate or collaborate?" It allows you to identify opportunities for retrofitting ICT into your existing units of work.

Also included is a plain English glossary to demystify the blogs, the wikis and the web2s of ICT.

Qty	Name	Cost	Total
	Learning with ICT by Peter Kent	\$41.99	\$
	Postage and Handling per book	\$10.00	\$
	TOTAL	\$	\$
